

Safety Institute of Australia (Inc)

Applying for a Media Pass

Applying for a Media Pass

To qualify for a Media Pass, you must be affiliated with a nationally recognised media outlet and hold an editorial title. You do not qualify for a media pass if you are a sales representative or any other non-editorial personnel.

To request a Media Pass to an Safety Institute of Australia Inc (SIA) conference or event, please send your full name, name of publication/media outlet, editorial position, phone number and links/attachments to previous editorial or published articles to natadmin@sia.org.au

Media Passes are limited, and are granted only to working journalists who intend to cover the event. Media credential approval for previous SIA events or conferences does not guarantee approval for future events. If your request for a Media Pass is approved, you will receive an email message from us, usually within a week. This will include details for obtaining your pass.

A Media Pass entitles you entrance to all sessions and keynotes. It does not provide access to workshops, networking events or access to delegate catering.

It may entitle you to trade show entry. This will be advised upon receipt of application.

Freelance Writers and Authors

Persons requesting freelance credentials must provide an article published within the past six months or a letter of assignment from a qualifying editor or publication. Those who freelance occasionally and are employed by non-news organisations are not eligible for media credentials.

Should you have any questions please contact the SIA offices on 1800 808 380.

The Safety Institute of Australia Incorporated (Inc) is the professional body for safety professionals and practitioners. The Institute believes that the distinctive advice of qualified and experienced safety and health personnel is a prerequisite to the specification and achievement of safety and health responsibilities of government, employers and community organisations.

The objective of the Safety Institute of Australia Inc is to promote the safety and health of people. We aim toward the highest possible standards of safety and health, at work, on the road, at play and at home.
